

Course Description

Data classes are one of the new features introduced in Python 3.7. When using data classes, you don't have to write boilerplate code to get proper initialization, representation, and comparisons for your objects.

✓ Certificate of Completion

This person's account is verified and was created on Nov. 22, 2020. Real Python certifies their completion of the *Using Data Classes in Python* course on Nov. 10, 2021.

About Real Python

[Real Python](https://realpython.com/) is an online learning platform and expert community for Python software developers. It offers interactive online classes and in-depth tutorials created by a team of subject matter experts.
