

## Course Description

This short course covers how to read and write data to CSV files using Python's built in "csv" module and the "pandas" library. You'll learn how to handle standard and non-standard data such as CSV files without headers, or files containing delimiters in the data.

## ✓ Certificate of Completion

This person's account is verified and was created on Nov. 22, 2020. Real Python certifies their completion of the *Reading and Writing CSV Files* course on Nov. 30, 2020.

## About Real Python

[Real Python](https://realpython.com/) is an online learning platform and expert community for Python software developers. It offers interactive online classes and in-depth tutorials created by a team of subject matter experts.
