

Course Description

In this course, you'll cover the important characteristics of lists and tuples in Python 3. You'll learn how to define them and how to manipulate them. When you're finished, you'll have a good feel for when and how to use these object types in a Python program.

✓ Certificate of Completion

This person's account is verified and was created on Nov. 22, 2020. Real Python certifies their completion of the *Lists and Tuples in Python* course on Jan. 27, 2021.

About Real Python

[Real Python](https://realpython.com/) is an online learning platform and expert community for Python software developers. It offers interactive online classes and in-depth tutorials created by a team of subject matter experts.
