This is to certify that

Angelika Kiepas

has successfully completed

Creating a Binary Search in Python

a course of study offered by Real Python (realpython.com), an online learning platform and expert community for Python software developers.

Completion Date: Feb. 3, 2021
Verification ID: b40bf04b-caa5-48a1-a1a7-7cc93eccb870

VERIFIED
Certificate of Achievement

Real Python

Course Description

Binary search is a classic algorithm in computer science. In this step-by-step course, you'll learn how to implement this algorithm in Python. You'll learn how to leverage existing libraries as well as craft your own binary search Python implementation.

✅ Certificate of Completion

This person's account is verified and was created on Nov. 22, 2020. Real Python certifies their completion of the *Creating a Binary Search in Python* course on Feb. 3, 2021.

About Real Python

Real Python is an online learning platform and expert community for Python software developers. It offers interactive online classes and in-depth tutorials created by a team of subject matter experts.
