✅ **VERIFIED**
Certificate of Achievement

This is to certify that

Angelika Kiepas

has successfully completed

Using NumPy's np.arange() Effectively

a course of study offered by Real Python (realpython.com), an online learning platform and expert community for Python software developers.

Completion Date: Jan. 30, 2021
Verification ID: abd81207-d571-4b3a-aede-df44968e1666

Course Description

In this step-by-step course, you'll learn how to use the NumPy arange() function, which is one of the routines for array creation based on numerical ranges. np.arange() returns arrays with evenly spaced values

✅ Certificate of Completion

This person's account is verified and was created on Nov. 22, 2020. Real Python certifies their completion of the *Using NumPy's np.arange() Effectively* course on Jan. 30, 2021.

About Real Python

Real Python is an online learning platform and expert community for Python software developers. It offers interactive online classes and in-depth tutorials created by a team of subject matter experts.
